# make it tough

perform tough tasks with

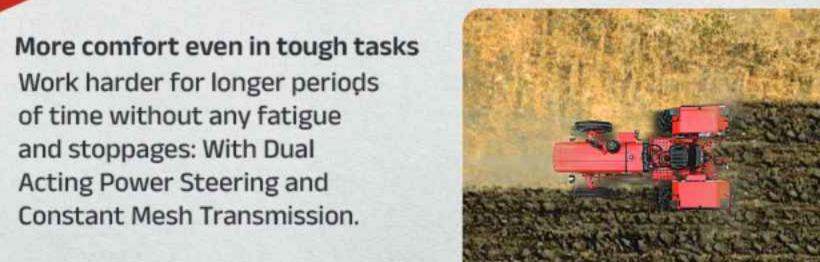

Tremendous mileage
Highest in class fuel economy: With tractors ensure low fuel consumption

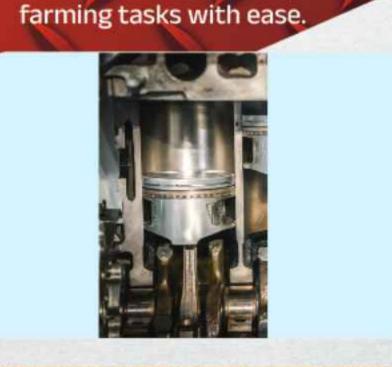

Do the toughest tasks without any worries with SP Plus series tractors with 2+4 years warranty.

## More coverage

## Extra-Long Stroke DI Engine: With ELS engine, SP Plus series tractors tackle the toughest

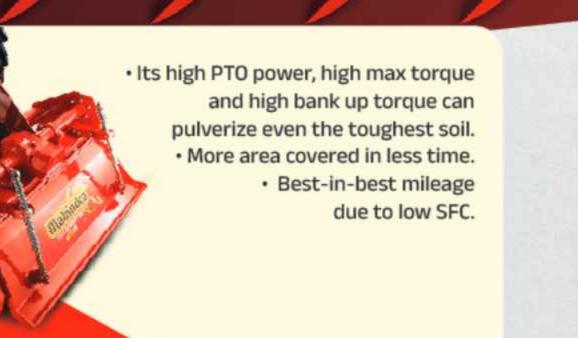

More coverage in less time: With 10% more torque, SP Plus series tractors can easily handle tough tasks like covering more fields in less time.

## Tuff in every farming work

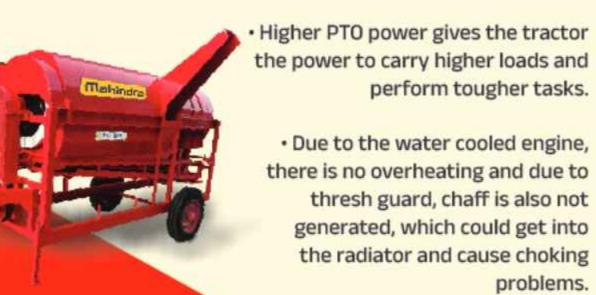

Rotavator

 Its high torque helps in tough tasks like deep plowing in hard soil and keeps the implement continuously connected to the

Thresher

• Due to the correct weight of the tractor, plowing is deep and during plowing, the cultivator tuft remains continuously embedded in the ground..

Advanced ADDC hydraulics ensure uniform and deep plowing of the entire field.

Cultivator

Potato Planter

 Its maximum PTO power makes small bundles without reducing RPM.

 The water-cooled engine gives the tractor the ability

and wheel cage, even the soil of tough areas is prepared better. · Due to its correct weight, the

tractor does not sink into the ground so that there is no unnecessary load on it.

 With the help of advanced ADDC hydraulics, even tough tasks like sowing of seeds are done with precision at the right depth.

Optimum gear speed provides a correct and accurate speed for sowing seeds.
